

Einstein School Song

Music by: Woody Guthrie

Lyrics by: Anne Sandbo

We're Einstein Otters, We're here to learn

We're from all over, Our great big world

In any language, Our teachers hear us

Einstein Otters, Will change the world

We really care, about each other

All the students, staff and parent

We try our hardest, we all cooperate

Einstein is where is all begins

We are a team, we work together

In the classroom and on the playground

We make a difference, to those around us

Einstein is where it all begins.

We can do it, we will succeed

We celebrate, our achievements

In the years to come, we'll remember

Einstein was where it all begins.
