### Using Sunscreen at School/Field Trips/Camps – 2022-2023 Process for all grades

“Any person, including students, parents and school personnel, may possess topical sunscreen products to help prevent sunburn while on school property, at a school-related event, activity, or at summer camp....a sunscreen product may be possessed and applied under this section without the prescription or note of a licensed health care professional.....For student use, a sunscreen product must be supplied by parent/guardian..(3)Nothing in this section requires school personnel to assist students in applying sunscreen.” - *WA State House Bill Amendment 5404 to RCW 28A.210*

Doctor permission is no longer required for students to use sunscreen at school but we ask that families review the Lake Washington School District process for sunscreen at school. The safety of all children is our priority. Thank you for understanding and complying with this process. It may be helpful to apply sunscreen at home before school, bring a sunhat labeled with name, and wear sun protective garments; however we understand that reapplication at school may be necessary.

Students may bring and self-apply sunscreen at school once parents have met the following conditions:

- Sunscreen is labeled with child's full name
- No spray sunscreen is allowed
- Younger students may find stick sunscreen easier
- Students must not share sunscreen with other students
- Students must handle sunscreen responsibly and administer it in a school-appropriate manner.

I agree and have met the conditions above and provided sunscreen for my student
